FRAGARIA NURSERIES

PULASKI, N. Y.

L. J. Farmer's Price List, 1934

TO OUR PATRONS: Although the stock of plants, etc. we have to offer is the largest and most complete for many years, we have decided to just issue this brief price list this year and thus pass along the saving to our customers in much reduced prices, rather than to issue a more or less expensive catalogue and raise our prices accordingly. We believe that in the Nursery Business that low price and high quality will have to go hand in hand this year, so here goes.

Absolutely Free

Every person who orders goods from this price list, to the amount of \$5.00 or more will receive a free copy of *Farmer on the Strawberry*. Tells all about growing strawberries, raspberries, etc., over 100 pages. Free bulbs or plants will be given to those whose orders amount to \$2.00 or more.

Orders Must Be \$1.00 or More

We prefer that you make your order at least \$1.00, as the clerical work on a 25c order is almost as much as one of \$100.00 or more, and in most cases there is no profit even on \$1.00 orders. Get your friends to order with you.

BLACK AND WHITE STRAWBERRIES

We offer these two varieties of strawberries in limited quantities. The one we call black is the darkest strawberry in color of any strawberry we have grown in our 51 years of experience. It is as dark as the La Tulippe Noire tulip, nearly black. The white strawberry is not pure white but a pinkish white. These are the finest flavored, sweetest strawberries we have ever grown. The black strawberry is the best canning berry we know. Mrs. Farmer will use no other if she can get this black strawberry. Price of plants, 12, \$1.00; 25, \$1.50; 100, \$5.00.

51 Years In Practice

Consult Doctor Farmer. If you had measles or small pox, would you go to a young doctor, who had just got his "diplomoy" or would you consult the old family physician? Sure, you would go to the old doctor. It is the same in matters pertaining to strawberry and general fruit culture. Our L. J. Farmer has had 51 years experience in fruit culture. His advice is free to prospective customers. Write us freely.
